Model Text – Non-Chronological Report

Neil Armstrong

Have you wondered about the life of one of the most famous people in history? Let's read on to find out more!

Who was Neil Armstrong?

Neil Armstrong was a famous American astronaut. He is famous for being the first man on the moon.

What was his life like?

He was born in 1930 in the USA and he was only 16 years old when he first got his pilot's license. He went to university and he was accepted into NASA in 1962. He died when he was 82.

How did he get to the moon?

He was the commander of the Apollo 11 in 1969. He went with Buzz Aldrin and Michael Collins into space. Neil and Buzz then landed 'The Eagle' safely on the moon. When he touched the moon, Neil said "That is one small step for man, one giant leap for mankind".

What did he do on the moon?

He collected moon rocks and dust and took plenty of photographs. He also planted a flag as well. After two hours, they joined the spacecraft and splashed down in the Pacific Ocean after 8 days in space.
